

I have lived in Centerville for sixteen years and been a lifelong Davis County resident living in Centerville, Farmington, Kaysville and Centerville again. I feel closely connected to this community with ancestry having settled in Centerville during the early pioneer migration.

I currently serve as a member of the Centerville City Planning Commission and have served in many roles throughout the community over the years. I hold a Bachelor of Science degree (Finance) from the University of Utah (Magna Cum Laude) and a Master of Real Estate Development degree from the University of Southern California's School of Policy, Planning and Development. I have worked at The Boyer Company for twenty-three years with a focus on healthcare real estate development.

I believe my experience and skill sets in finance, budgeting, and understanding of community land use and building development, combined with effective communication and interpersonal interaction, uniquely qualify me as a candidate for Centerville City Council.

I am a husband and father of three children and son-in-law (a granddog too) and love to spend time with them both outdoors and indoors. I enjoy outdoor and endurance sports (Ironman), biking (road/mountain), running/hiking, swimming, skiing - also working in my yard and garden.
